Patented Roses

NOCTURNE. This is a beautiful dark red rose with maroon shadings. The flowers are pleasantly fragrant. This rose has one of the longest, most perfect, streamlined buds of any red rose.

DIAMOND JUBILEE. The yellow rose of your dreams. The warm, glowing buff-orange blooms open slowly, providing many thrilling hours as you watch the buds gradually unfold.

KATHERINE T. MARSHALL. A rose of rare beauty and delicacy of form. The loveliest possible shades of coral pink, underlaid with soft gold. Blooms are slow-opening, heavy petaled and sun-resistant.

MISSION BELLS. A beautiful deep salmon-pink rose opening to a clear shrimp-color. The long pointed buds are borne on long stems. Full centered flowers often measure 5½ inches across.

REX ANDERSON. One of the few very successful whites. Buds are perfect in form with an abundance of grey-green foliage. Opens into massive double, ivory-white blooms. Soft and fascinating scent.

MIRANDY. A gorgeous, fragrant, red rose that takes its place with the finest red roses of the world. The big buds are deep rich red with black hadings opening to Chrysanthemum-red.

AMERICAN FLAGSHIP. A banner red rose, good as the name it bears. Great, rich dark bud to delight the eye. You will love its marvelous coloring and the sturdy bushes.

IMPORTANT INFORMATION

LOCATION. Our nursery is located in the heart of Arkansas, 40 miles from Nashville, one of the leading peach centers of the entire United States, 35 miles south of Hot Springs and 25 miles west of Arkadelphia, Arkansas, on Highway No. 8. Our soil is adapted to growing fine nursery stock with a perfect root system. It is our aim to produce stock our customers will be proud of and at the very lowest prices possible.

OUR GUARANTEE is that you must be satisfied or your money will be refunded for any items you purchase from us that are not what we represent them to be. We guarantee our trees to be true to name and will replace any stock that should prove otherwise. In no case whatsoever will we refund more than the purchase price. Claims must be made in writing before June 1st.

WE PAY POSTAGE on all orders of \$2.00 or more. We ship all orders possible by parcel post; however larger orders will be shipped by express and will be express collect. To avoid delay and expense to you, send full remittance with your order. A 25 per cent deposit is required on all C.O.D. orders. C.O.D. shipments are not sent postpaid.

DUE TO THE COST OF HANDLING we are unable to handle orders for less than \$2.00. We do our best to ship orders same day as received, but in some cases are unable to do so. All orders will be shipped as soon as possible after they are received.

OUR SHIPPING SEASON usually starts about November 1st or as early as possible after stock is perfectly dormant. If frosts are early we should be able to handle any order by December 1st. The season usually ends about May 15th. All orders will be shipped in rotation as they are received.

INSPECTION. All our stock is State and Federal inspected. In addition to these inspections we inspect each tree when it is dug from the nursery rows. Each bundle is carefully packed, labeled with an inspection certificate, so as to reach you disease free and in good condition.

FREE PLANTING GUIDE. With each order we will send a free helpful planting guide. Follow the instructions in this planting guide and you will be successful with all your plantings.

PEARS

BARTLETT. The favorite commercial pear. Fruit very large, juicy, orange-yellow in color with a soft blush. It is quite uniform in shape. The favorite for shipping, canning and eating. The tree is a strong grower and produces very young. Hardy and a regular bearer. Ripens in September.

KIEFFER. The well known canning and preserving pear. Fruit large, golden yellow often blushed by the sun. The most profitable to grow. Tree healthy, hardy and vigorous. Often the fruit needs to be thinned so as not to over-bear. Ripens in September and October.

GARBER. The fruit is similar to the Kieffer and ripens in August. The tree is healthy and bears very heavily. Fruit is delicious for eating or canning. Juicy and of excellent flavor.

DOUGLAS. One of the best early pears, ripens latter part of August. The youngest and heaviest tree to bear on our list. Two and three-year-old trees often produce a large amount of large, juicy, delicious fruit that is without a doubt the best eating pear grown. It resists blight and is fast taking the lead as a commercial variety.

APRICOTS

EARLY GOLDEN. This is a large, deep golden yellow fruit that is delicious and unexcelled for canning and preserving. The fruit is juicy and ripens early in the season. Freestone variety and self-pollinating. Ideal for home garden as it bears young.

MOORPARK. Big, juicy, full-flavored apricot just right for canning and drying. One of the finest apricots. Ripens to a beautiful orange color, both skin and flesh. Very mild and sweet. Trees are very hardy and thrifty.

ROYAL. A fine, large French variety. Skin dull yellow with an orange cheek, very faintly tinged with red. Ripens latter part of July.

BOYSENBERRIES

New Thornless Boysenberry. The newest development of the most delicious berries you have ever eaten. Huge crops of rich, fancy, juicy fruit borne on canes as smooth as velvet. The new berry ripens about ten days ahead of the older varieties. The flavor is a combination of Raspberry, Dewberry and Logberry all packed into fruits nearly two inches long. Makes them excellent for pies, canning and desserts. By all means you must try a few of these fine berries.

Prices: 10 Plants for \$1.00; 100 for \$7.50

YOUNGBERRIES

A successful new addition to the berry family, being a cross between the Loganberry and the Dewberry. A rich, dark wine color; very large. Easily grown. Extra productive.

Prices: 10 Plants for \$1.00; 100 for \$7.50

RASPBERRIES

CUMBERLAND. Black. The largest and best midseason blackcap. Healthy, vigorous, productive; of large, firm berries, fine quality. One of the hardest varieties.

LATHAM. Red. Undoubtedly the best looking red Raspberry on the market. Produces enormous crops of large, dark red berries of the finest quality.

ST. REGIS EVERBEARING. Red. Another of our fine red varieties. Bears fruit all summer until autumn.

Prices: 10 Plants for \$1.00; 100 for \$7.50

DEWBERRIES

AUSTIN. Very large, black berry, highly flavored. For production, it rivals all Dewberries.

LUCRETIA. Early black, extra large berry. A very fine berry for the market.

Prices: 10 Plants for \$1.00; 100 for \$7.50

BLACKBERRIES

EARLY HARVEST. One of the earliest blackberries in cultivation. A compact, dwarf grower; fruit small and of good quality. Heavy bearer.

ELDORADO. The earliest and sweetest blackberry. Berries are jet black in large clusters, very sweet and practically coreless. Keep a week or more after picking with quality unimpaired.

MCDONALD. Enormously productive, outyielding any other variety of blackberry. Ripens two weeks before any other variety. Can be sold for extra price before the other varieties hit the market.

Prices: 10 Plants for \$1.00; 100 for \$7.50

FREE PLANTING GUIDE WITH EACH ORDER

APPLES

STAYMAN WINESAP

YELLOW TRANSPARENT. Medium in size, clear waxy white, becoming pale yellow when fully ripe. Flesh white, tender, juicy and of excellent flavor. Tree small but very hardy and productive. One of the best early apples grown. Ripens in June.

RED JUNE. Medium in size, bright, shiny red. Flesh tender and mild. Good quality and very productive. One of the best for cooking and pies. Ripens about June 20th.

LODI. A new variety of summer apple that bears when very young, often in two or three years after transplanting. The fruit is large, clear yellow with a slight red blush. A sure bearer. The tree is very vigorous and hardy. The fruit is similar to the Yellow Transparent only larger and a better shipper. The flesh is crisp and has an excellent flavor.

RED BIRD. One of the earliest red apples. Flaming red, ripening in June. Fruit is large in size, very fine flavor and one of the best quality of any red apple. Ripens at a date when the market is best. The tree bears young, annually and an immense crop.

TWENTY OUNCE. The fruit is exceptionally large, juicy and crisp. Green with a slight blush and red stripes. Tree thrifty and very productive. The best apple grown for home use. Brings top prices on any market.

RED JONATHAN. This is one of the best apples for the market, being out-sold only by one other apple. Jonathan cannot be praised too highly. It's solid red, good size, firm, juicy and keeps well. The flesh is white and brittle, with a flavor that cannot be beat. An excellent cooking and eating apple. It is hard to equal for hardness and produces when others fail. Used extensively as a filler and pollinating variety. No commercial or home orchard is complete without this apple.

YELLOW DELICIOUS. Our number one apple. Large in size and golden yellow in color. Most delicious flavor. The best suited apple for all types of soil and climate. The tree while not a large growing type is thrifty and extremely productive, coming into fruiting and producing an abundant crop while very young. This apple should be picked at just the right time and placed in storage for late winter use. Ripens late September.

ROME BEAUTY. Large, round, mottled, striped in shades of red. Flavor and quality above the average. Appearance and size are its valuable points. Keeps well and a very good shipper. Always bring good prices.

RED DELICIOUS. One of the best red apples. Extra large, dark red in color. Flesh fine grained, crisp, juicy, melting and delicious. Bears annually, great yielder and hangs well on tree. Bears well in almost every state in the Union. Splendid keeper and shipper. Tree very hardy and usually lives to a very old age.

STAYMAN WINESAP. An old favorite in any orchard. A fine winter apple that is great for shipping and storing. The fruit is medium size, firm, juicy and red in color. The tree is thrifty, hardy and regular bearer when given the proper cross pollination.

MAMMOTH BLACK TWIG. Extra large in size, skin smooth, dark red and of excellent quality. Flesh firm and crisp. Tree vigorous, healthy and bears young.

CHERRY TREES

EARLY RICHMOND. A good old variety, perfectly hardy, unimpaired by the most severe winters. One of the most valuable and popular varieties, used extensively by canners. Excellent for pies and preserves.

MONTMORENCY. Considered by fruit growers to be the line sour cherry grown. Fruit large, firm, ships perfectly. Bears very young, produces tremendous money making crops and is successful anywhere. A large per cent of all frozen cherries used for pies are Montmorency.

BLACK TARTARIAN. Here is the best most dependable and successful of all sweet cherries. You can always depend on this variety for a good crop. The sweet mild flavor has won nation-wide popularity with commercial and home growers.

PEACHES

GOLDEN JUBILEE

DIXIE RED. Medium size, yellow clingstone. Flesh firm but melting, medium textured, good flavor. Acquires its attractive red blush long before it is ready to pick. Early shipper.

DIXIE GEM. An early yellow-fleshed peach, ripens just ahead of the Golden Jubilee. The fruit is medium size, bright yellow with red overcoat. It is almost a freestone when it is fully ripe and is usually semi-cling at the shipping stage.

GOLDEN JUBILEE. This is one of the best early peaches. Ripens almost three weeks earlier than the Elberta. The fruit of its class is rich in color, attractive, yellow-fleshed, firm and juicy. It is excellent for dessert or cooking. This is a fine variety for the home grower because of the high quality fruit and being so early. It is rated very high as a market peach because of the resemblance to the famous Elberta. A good pollinator. Freestone.

RED HAVEN. Bright red coloring on a yellow background. Fruit ripens uniformly. Has produced full crops when other varieties fail. Ripens about five days before the Golden Jubilee. Self-pollinating. Good freezing qualities. Freestone.

IMPROVED EARLY ELBERTA. A great commercial peach. Ripening about two weeks earlier than the Elberta. The fruit of its class is rich in color, attractive, yellow-fleshed, firm and juicy. It is excellent for dessert or cooking. This is a fine variety for the home grower because of the high quality fruit and being so early. It is rated very high as a market peach because of the resemblance to the famous Elberta. A good pollinator. Freestone.

HALE HAVEN. Large, beautifully colored, yellow-fleshed peach. Ripens about two weeks before the Elberta. A perfect freestone. This is one of the finest shipping and canning peaches grown, also excellent for freezing. Pollinates other varieties.

FAIR BEAUTY. Ripens 10 days before the Elberta. Large, yellow peach with a beautiful red cheek. Can be hauled several hundred miles to market. It ripens at the time when highest prices are paid for peaches. You won't go wrong on this variety. Semi-cling.

SULLIVAN'S EARLY ELBERTA. A new red sport of the famous Elberta. Ripens 7 to 10 days ahead of its parent. Well adapted to any peach growing section. The tree and fruit characteristics are found to be almost identical with the Elberta. It is large in size, extra fine quality and shows to be one of the best shippers. We have long needed a good commercial peach to fill this ripening time. If your market demands quality and beauty, plant Sullivan's Early Elberta.

ELBERTA. This is the standard market peach wherever you go. It is the most widely grown and the one to which others are compared. The fruit is large, yellow with a rosy blush on the sunny side, yellow flesh and is almost identical with the Elberta. It is large in size, extra fine quality and shows to be one of the best shippers. We have long needed a good commercial peach to fill this ripening time. If your market demands quality and beauty, plant Sullivan's Early Elberta.

GIANT HALE. This peach is extra large, round, highly colored with golden skin and flesh. Skin is almost fuzzless. Ripens approximately the same time as the Elberta. For best results plant with other varieties for pollination. Freestone.

OLD-FASHIONED RED INDIAN. A clingstone, very highly colored and red to the seed. One of the best picking peaches. The trees are unsurpassed for horticultural beauty. Fruit so large that it would not go in a pint cup. Do not confuse this peach with the ordinary Indian peach. Ripens just after the Elberta. Excellent freezing qualities.

FRANK. A delicious cling peach that ripens two or three weeks after the Elberta is gone. This late variety usually brings the top market prices. Large, yellow with red covering. Good shipper. Proven a sure bearer.

PLUMS

RED JUNE. The best early red plum, ripening in early June. Usually a sure-cropper because of the late bloom. Medium to large in size and deep red in color. Flesh light lemon-yellow, firm, moderately juicy. Tree upright, hardy and productive.

ABUNDANCE. Fruit very large, ripening in the latter part of June. Amber, turning to a rich cherry red when ripe. Flesh light yellow, very juicy and tender. Excellent for canning.

METHLEY. One of our best plums. Ripens in early part of June. Large, dark red; flesh red to the seed. Very juicy and sweet. No home orchard is complete without this variety.

BRUCE. This is one of the best plums that grows in the South. The tree is very healthy, early to bear and produces a large red plum that cannot be beat for both flavor and size.

BURBANK. Large cherry-red plum. Flesh amber-yellow, with rich sugary flavor, high quality and very productive.

GRAPES

CONCORD. It never fails. Grown successfully in every state in the Union. Large bluish black grape. The grape's skin is very tender, but sufficiently firm to carry to a distant market. Sweet and juicy. Vines grow very fast and bear the second year. Ripen in August.

CAMPBELL'S EARLY. A large black grape adapted to a wide area. Clusters and berries are large and perfect. Flavor rich and sweet. Fine keeper. Hardy and productive. Ripens in July.

DELAWARE. The earliest red grape. Ripens 10 days before the Concord, medium size fruit. Flesh is juicy and sweet, making it ideal for dessert and wine. Vines are hardy and productive. Very popular in the home vineyard.

MOORE'S EARLY. This variety ripens three weeks earlier than the Concord. Rich black in color, always loaded and always enjoyed. Taste is wonderful when picked from vines. Fruit very large. A vigorous grower and very productive.

FREDONIA. Big, compact cluster of black grapes. Two weeks ahead of the Concord. Fredonia withstands the late frost. It is the most wonderful flavor. Heavy producer, fine shipper. A profit winner.

SHADE AND ORNAMENTAL TREES

REDDUD. Heart-shaped leaves; rosy-purple flowers in March before the leaves appear. A satisfactory flowering tree because it is so hardy and has no diseases. Why not start a Redbud tree in your community?

TULIP-POPLAR. A tall pyramidal tree rising to a great height. Large, glossy leaves; huge, tulip-shaped flowers in spring. Handsome and distinctive. Price: 2 to 4 feet, 90 cents each.

CHINESE ELM. A native of China. Very rapid growing, extremely hardy. Leaves out early in the spring and leaves stay on longer in autumn. For a quick shade tree try Chinese Elm. Price: 4 to 5 feet, 90 cents each.

WEEPING WILLOW. One of America's most beautiful shade trees. A gorgeous shade that invites you to a cool, restful spot during the hot summer evenings. A bank of Weeping Willows makes a lovely background for an outdoor living room. Plant wherever a graceful shade is needed. Price: 4 to 5 feet, 90 cents each.

MIMOSA. (Weeping Silk Tree) The Mimosa makes a beautiful shade tree, has an umbrella-like top with light green, feathery foliage that folds up at night. Fragrant, fluffy pink blossoms liberally cover the arching limbs in the summer. Extremely hardy and adapted to all sections. Do not plant in wet spots. Price: 2 to 4 feet, 90 cents each.

FORSYTHIA. A small tree-like shrub with attractive leaves two inches long and an inch wide. Its pendulous sprays of the conspicuous silky catkins which bud in the fall, and make those "spring" bouquets just as the snow melts in the spring. Price: 2 to 4 feet, 90 cents each.

ALBINO PLUM. One of the most beautiful ornamental trees to produce delicious fruit. Produces the finest, sweet, juicy, red plums you ever ate. No other plum offers so much beauty and good eating during the season. Well named: foliage, stems, branches, fruit, even the seed is ALBINO. Price: 2 to 4 feet, 75 cents each.

FLOWERING PEACH. A small tree that one can find a place for in almost any garden for it does not require a great deal of space. The branches are covered with rosettes of flowers in early spring. Hard pruning each year after the blossoms are gone will produce greater production of flowers the following season. Double red or white. Price: 2 to 4 feet, 75 cents each.

LOMBARDY POPLAR. A handsome tree reaching far into the sky. Stands erect, tall and ever graceful. Beautiful in rows as screens or background. Price: 2 to 4 feet, 75 cents each.

BROADLEAF EVERGREENS

NANDINA. A beautiful and most popular evergreen with bright red berries in the winter. The leaves vary from green to a brilliant red in the winter. Highly recommended for fill-in planting about the house and grounds. Price: 15 to 18 inches, 75 cents each.

ABELIA. Dark, glossy leaves and flowers are perfectly contrasted with the delicately perfumed, little white flowers produced from early to late. The arching branches are graceful, but the plant may be sheared to any shape and to any size. Price: 15 to 18 inches, 75 cents each.

STRAWBERRIES

Spring Bearing Varieties

BLAKEMORE. Extra early, bright red berry favored for large-scale planting and long-distance hauling. Always bear a big crop of firm, fine flavored fruit.

DUNLAP. The old standby. A midseason variety that grows on all types of soil and in all climates. A good producer and a fine berry.

AROMA. Glossy red, pleasing flavor, very productive and of great market value. Superior to most late varieties.

IMPROVED KLONDYKE. The perfect strawberry for home or market. The berries are uniform in shape and size. Dark red in color and mild, delicious flavor. A strong productive bearer that sells for fancy prices. Above varieties: 25 for \$5.00; 100 for \$15.00

Everbearing Varieties

GEM. A large, sweet, juicy berry. Considered the "gem" of everbearers. Good quality, firm glossy red. Good shipper, heavy producer. Fine for home gardens.

Gem Prices: 25 for \$1.00; 100 for \$2.75

NEW STREAMLINER. This excellent everbearer has everything; enormous size, rich red color, excellent flavor and a big producer. A wonderful variety for eating fresh, canning or freezing. Bears for two or three months same year planted.

New Streamliner Prices: 25 for \$1.00; 100 for \$3.95

PAPER-SHELL PECANS

STUART. This variety is best suited for all sections of the country and all types of soil. It is a good producer and a very fast grower. The nut is large, well filled, sweet and brittle, one of the earliest ripening of all standard pecans. Vigorous trees, seldom misses a crop.

WESTERN SCHLEY. A long, well shaped, beautiful nut. The shell is very thin and soft. The tree is healthy, strong grower, early and heavy producer.

SUCCESS. The most popular eastern variety. The nut is large and oblong with smooth, creamy kernels that release perfectly from the shell. The tree is a vigorous grower and resistant to scab.

BURKETT. This variety is one of the leading pecans. Its flavor cannot be equalled. It is a regular producer of large, fat nuts that bring top market prices. Plant Western Schley with Burkett for perfect pollination.

GIANT MAHAN. The world's largest pecan. The nuts look similar to the Western Schley but are twice as large. Mahan is also a true brittle Paper-Shell, and brings more money than any other pecan growth. Mahan is a heavy producer and is adapted to all sections. This variety has become very popular due to the healthy, vigorous growing tree which makes a beautiful shade specimen. Plant the variety for home or commercial planting.

PRICE ON PECAN TREES

2 to 3 feet, \$1.85 Each; 3 to 4 feet, \$2.15 Each; 4 to 5 feet, \$2.65 Each

Thomas Black Walnut

This giant thin-shell Black Walnut will grow and bear anywhere. Usually bears within one to two years after planting. Pick bushels of these big, delicious walnuts from your own trees and store them for the winter. Fine for eating fresh or making delicious candies. The tree is a fast grower and soon will make a beautiful, valuable shade tree for your home.

PINK RADIANCE

TALISMAN

TALISMAN. Gorgeous colors in gold, apricot-yellow, orange, deep pink and old rose. Long pointed buds. A great favorite.

PINK RADIANCE. This is one of the best, strong growing bushes we grow. Covered with big, double blossoms from early spring until frost.

Climbing Roses

CLIMBING ETOILE DE HOLLANDE. The lovely red blooms are often larger and on longer stems than those on the bush Etoile De Hollande.

CLIMBING PAUL'S SCARLET. Midseason. This popular rose is the most admired of all. Produces sheets of blazing, unfading scarlet blooms.

CLIMBING TALISMAN. A truly distinctive climber. Buds are orange-yellow opening into large blooms of salmon-orange shaded with red and gold.

PAUL'S SCARLET

CLIMBING CALEDONIA. Large, free blooming, pure white roses. Dark, leathery foliage.

CLIMBING MARECHAL NEIL. World famous. A very large rose of clear shining yellow. Possesses rich fragrance.

Everblooming Roses

EDITOR MCFARLAND

EDITOR MCFARLAND. This lovely pink rose has long stems and perfect blooms. One of the finest pink roses.

RED RADIANCE. A beautiful red. Blooms cover the bush almost continuously throughout the season. The number one rose.

RED RADIANCE

K.A. VICTORIA

K.A. VICTORIA. We think this one of the best white roses grown. Beautiful large, white buds and blooms.

McGREY'S YELLOW. Unfading canary-yellow flowers of excellent form. This is one of the finest yellows; a constant bloomer. Dark glossy holly-like foliage.

ROUGE MALLERIN. Damask fragrance, brilliant red, open to 3½ inch blooms. A very fine and very double rose.

KONIGIN LUISE

KONIGIN LUISE. Good white roses are not very plentiful, but here is a fine one. Long buds of ivory white that change into the purest white as they open.

POINSETTIA. A rose of true poinsettia color. The bud is ideal in form, long pointed, which opens to a full petaled rose.

YELLOW TALISMAN. A hybrid of two-tone Talisman that is a pure, clear, bright yellow.

GOLDEN DAWN

GOLDEN DAWN. Sunflower-yellow blossoms turning to lemon. Well formed, sweetly fragrant.

GRENOBLE. A most beautiful large, deep carmine-red rose. One of America's most fragrant roses.

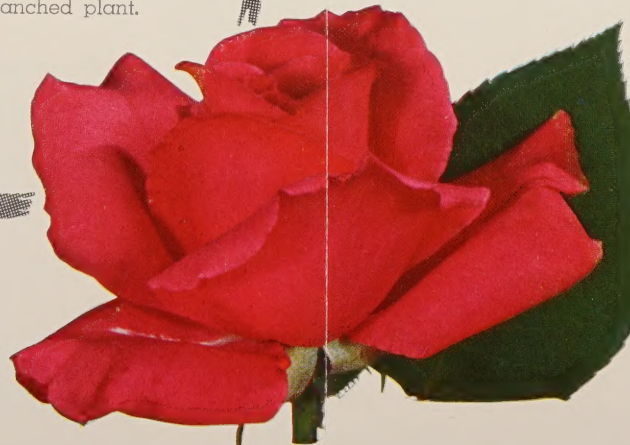

GRENOBLE

PRESIDENT HERBERT HOOVER. Large multi-colored flowers combining yellow, copper and flame tones. Long heavy cutting stems on a well branched plant.

PRES. HOOVER

ETOILE DE HOLLANDE. Truly the queen of red roses. Large, deep crimson flowers with velvety finish and rich fragrance.

ROUGE MALLERIN

Flowering Shrubs

Make Your Home More Attractive

ALTHEA. (Rose of Sharon.) Tall growing shrub, with beautiful double flowers that shower blooms from midsummer until frost. Unusually hardy. Your choice of red or purple.

Price: 18-24 in., 55c each; 2 for \$1.00

GRAPE MYRTLE. By far the best known, most popular and one of the finest flowering shrubs in the south. Blooms from midseason until frost. Watermelon red or pink.

Price: 18-24 in., 65c each; 2 for \$1.25

FORSYTHIA. (Golden Bell.) A showy mass of yellow flowers early in April before the leaves appear. Both the grace and beauty give it a prominent place in shrub plantings.

Price: 18-24 in., 50c each; 2 for 90c

FORSYTHIA

HYDRANGEA P. G. The most striking of all shrubs. It produces huge white cone-shaped flowers in August, turning pink and finally bronze in September. Ideal for cut flowers.

Price: 18-24 in., 90c each; 2 for \$1.75

LILAC. Any description would fall short of the real beauty, both in form and fragrance, of these marvelous flowers. Very hardy and easily grown. Dark purple only.

Price: 18-24 in., 90c each; 2 for \$1.75

MOCK ORANGE. A choice shrub, with a wealth of large, creamy-white flowers that have the texture and fragrance of orange blossoms. Blooms in May and June.

Price: 18-24 in., 60c each; 2 for \$1.10

PURPLE LILAC

SPIREA (Van Houttei). One of the most common but one of the most beautiful of all shrubs. A medium size shrub covered with pure white flowers in early spring.

Price: 18-24 in., 50c each; 2 for 90c

WEIGELA (Rosea). Rose-pink with a deeper shade in the throat, it is very free blooming. Blooms in April and May. But it is still an ornamental asset to every yard the remainder of the summer with its beautiful green foliage.

Price: 18-24 in., 50c each; 2 for 90c

WEIGELA (Eva Rathke). Most distinct variety, being later (June) and most conspicuous with deep carmine-red flowers.

Price: 18-24 in., 60c each; 2 for \$1.10

HYDRANGEA P. G.
